

## What is Geocaching?

Geocaching is a global treasure hunt in which participants use Global Positioning System (GPS) receivers to find hidden geocaches. Caches can be as small as a dime or as large as a military ammo can. When geocachers find a cache, they log their visit in a log book found in the cache and online. They also trade trinkets in the caches. Currently, there are about 1.7 million geocaches located in over 150 countries around the world.

## How to Participate

Begin by setting up a free account on goecaching.com. Once you have an account, use a geocaching mobile app to locate a cache or you may also use the cache descriptions on geocaching.com and a GPS unit or Google Maps to find our caches.

In each cache you will find a letter that helps you uncover secret word(s). Also, both GeoTrails have a final cache which does not have its coordinates listed. The coordinates are located within two caches in each GeoTrail. When you complete the brochure and uncover the secret word(s) you are eligible to redeem your commemorative tokens!

## How to Redeem your Token

To redeem your Duke Farms & TALON GeoTrail tokens, take your completed brochure to the Orientation Center.

## How are the TALON and Duke Farms GeoTrails different? Which one should I attempt?

Both trails consist of 11 different caches placed around the property and require a substantial amount of walking. The Duke Farms GeoTrail contains 3 puzzle caches making it more difficult for first time geocachers. We recommend that newer geocachers try out the TALON GeoTrail first. It was designed by the TALON class of 2015.

## What is TALON?

The Teen Action & Leadership Opportunities for Nature program is designed to engage high school students from underrepresented racial and ethnic groups in an intensive program in conservation biology that builds personal connections with the natural world through hands-on field experiences.

## COME AND VISIT!

### Directions

Duke Farms is located at 1112 Dukes Parkway West in Hillsborough, between Route 206 and Roycefield Road.

### Hours

Spring & Summer: 8:30am to 6:00pm
