Exploring Duke Farms

The mission of Duke Farms is to be a leader in environmental stewardship and inspire visitors to become informed stewards of the land.

Duke Farms is one of the largest privately-owned parcels of open land in New Jersey. Created by James Buchanan Duke and preserved by his daughter, Doris Duke, the property is rich in ecological, agricultural and horticultural resources.

Today, Duke Farms serves as a habitat for native plants and animals. Regeneration of the land helps to protect wildlife, to promote biodiversity and to preserve natural resources.

Learn about the history of Duke Farms and explore miles of trails through woods and meadows, and along lakes and streams, to see how natural and human history have shaped the landscape.

GETTING AROUND DUKE FARMS

Orientation Center and Café
Begin your trip to Duke Farms at the Orientation Center housed on the first floor of the historic Farm Barn. Find information on upcoming programs and events, tour interactive exhibits to learn about the ecology, history and mission of Duke Farms and our land stewardship and sustainability efforts. You may view a short film or borrow an Eco-kit to take with you as you explore the property, or stop for a meal and refreshments at the café.

Walk and Hike on paved ways, stone lanes and mulched paths. There are more than 18 miles of trails to explore. Wear comfortable outdoor walking shoes.

Bicycle only on paved and gravel paths; woodchipped paths will pop your tires.

TREAD LIGHTLY ON THE LAND
Duke Farms is proud to be home to a wide variety of species, and to welcome you to experience these plants and animals in their native surroundings. We ask that you help us to protect and preserve these vital habitats.

GUIDELINES FOR VISITORS
For the safety and enjoyment of visitors and wildlife:
• Pedestrians and wildlife always have the right-of-way.
• Duke Farms has a carry-in carry-out policy for trash—please take your trash with you, or deposit it in bins at the Orientation Center.
• Your activities should be restricted to marked trails.
• Bicycles are restricted to paved roads and stone trails. Vehicles are restricted to designated areas.
• Hoverboards are not permitted.
• Pets are not permitted.

Duke Farms prohibits the following activities:
• Commercial activity—including fee-based classes, professional photography, selling any products, or even solicitation of goods or services.
• Alcohol use.
• Smoking or vaping.
• Weapons of any kind (including paint-ball weapons) and fireworks.
• Campfires and open burning, including portable grills.
• Disturbing habitats, including removing plants or animals; and feeding animals.
• Activities adverse to wildlife such as fishing, using remote controlled vehicles and drones, kite flying, ball playing, frisbee throwing, tree climbing, etc.
• Swimming or wading in any body of water.

The Orientation Center and the Duke Farms Website (www.dukefarms.org) can provide you with a full list of habitat-friendly activities, sights to see, and scheduled programs.

GUIDES TO YOUR VISIT
ON THE PROPERTY:
An Audio Guide with marked locations throughout the property provides additional information about key features just by using your cell phone.

AT THE ORIENTATION CENTER:
Eco-kits are available on loan and contain binoculars, a compass, a Field Guide and a nature journal to record observations.
A Field Guide to Duke Farms provides an overview to what you may see on your visit, including habitats, plant and animal species, cultural features and green initiatives.

DUKE FARMS’ FARMERS MARKET
Our Farm Market offers an assortment of fresh organic produce, jams, baked goods, free-range meats and artisan crafts from local farmers and craftsmen.
Open Sundays from May to November. See dukefarms.org for details. Please come out and support your local farmers!

ADMISSION IS FREE
Some events and programs require a fee and advance registration; visit www.dukefarms.org for more information.

Duke Farms is owned and operated by the Duke Farms Foundation, an operating foundation of the Doris Duke Charitable Foundation.

ARBORETUM
The Arboretum, named for the incredible specimen trees populating the area, is located where the seasonal residence at Duke Farms once stood. The land has been restored to support habitat and provide public access to 225 additional acres, including the 50 acre house site (the “Arboretum”) and 175 acres of ecologically restored floodplains along the Raritan River.

GETTING TO THE ARBORETUM
There are various points of entry into the Arboretum.

From within the park:
There are two ways to access the Arboretum from inside the park. The first point of entry is through a gate at the intersection of Central and Overlook Way by the Coach Barn. This was the driveway for the former seasonal residence. You can also access the Arboretum off of West Way by turning right onto Arboretum Way near the North Gate. This path will take you to the west side of Arboretum.

From the Borough of Raritan:
Pedestrians and bicyclists can access the Arboretum from the Borough of Raritan using the Nevius Street Bridge. The county is constructing the Raritan River Bikeway which will include a paved spur coming down to Duke Farms. This new path will run parallel to River Road and enter Duke Farms at the Arboretum Gate (the path is marked in purple on the above map).
